

MAN. MACHINE. **HERO.**

SOFTWARE. HARDWARE. **COMPLETE.**

IRON MAN 2

ORACLE

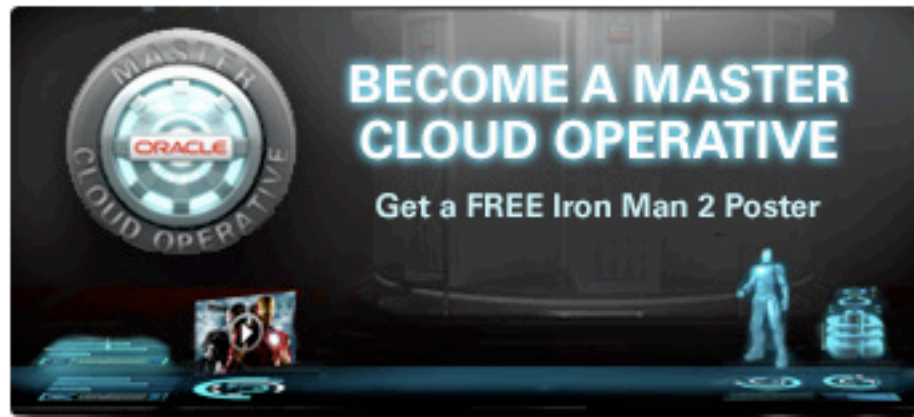

© 2010 MVLFFLLC.TM & © 2010 Marvel.

Just as man and machine join flawlessly to power Marvel's invincible hero Iron Man, Oracle's industry-leading software and hardware seamlessly integrate to deliver a complete IT stack unmatched by any competitor. At the core is the world's #1 database, supported by Oracle Fusion Middleware, and best-of-breed industry and business applications. Oracle Solaris and Oracle Unbreakable Linux provide open and innovative operating systems. Leading-edge virtualization and cloud solutions provide efficient access to fast, flexible, and cost-effective service. With the final addition of Sun storage and server technology, the Oracle stack is now complete.

#### HEROS WANTED

##### Visit Oracle at Stark Expo

In Iron Man 2, Oracle is a proud sponsor of Stark Expo, a world-class tradeshow that depends on a cloud computing architecture to ensure that all systems are free from overload. And that's where you come in: by becoming a Master Cloud Operative, you'll help keep Stark Expo up and running. Complete your training, test your troubleshooting skills, and get certified in the Oracle Pavilion. (Every qualified Master Cloud Operative receives a free *Iron Man 2* movie poster, while supplies last.)

#### A PARTNERSHIP WITH PUNCH

##### Oracle Powers a World of Super Heroes

As one of the hottest media companies of the digital age, Marvel Entertainment has transformed its publishing business into a marketing powerhouse. And at the heart of Marvel's growth and transformation are Oracle technologies, driving the performance of critical data across every system in the enterprise. Now this successful collaboration has found its way to the big screen, as Oracle joins forces with Stark Industries for the upcoming *Iron Man 2*.

Watch this special movie trailer to see how Oracle software and hardware are combining to deliver a powerful new punch for today's most innovative companies.
