

San Francisco Bay Area Drivers Association (SFBADA)

National Taxi Workers Alliance (NTWA/AFLCIO)

TO: Honorable Judge Edward Chen

We, the undersigned, are members of the class of Uber drivers who have driven UberX, Uber SUV or Uber Black in California between August 2013 and December 2015 whose case C13-3826 EMC O'Connor v. Uber is before your court.

We are writing to inform you that:

- We object to the private settlement arrived at between attorney Shannon Liss-Riordan and Uber Technologies.
- We had expected Ms. Liss-Riordan to represent our best interests as drivers who are part of the class. We no longer believe this is possible. The settlement only serves the interests of Uber Technologies and Ms. Liss-Riordan. It leaves us, the drivers, with nothing to improve our conditions or compensate our losses.
- Further, we are firm in our assessment that our best interests lie in the case going to trial and the court determining our status as employees of Uber Technologies. A private settlement should not be allowed to decide that we are not employees.

Accordingly, we urge you to reject the settlement currently before you, to remove Ms. Liss-Riordan from the case, and to send the case to trial at the earliest date possible.

Most Sincerely:

- We had expected Ms. Liss-Riordan to represent our best interests as drivers who are part of the class. We no longer believe this is possible. The settlement only serves the interests of Uber Technologies and Ms. Liss-Riordan. It leaves us, the drivers, with nothing to improve our conditions or compensate our losses.
- Further, we are firm in our assessment that our best interests lie in the case going to trial and the court determining our status as employees of Uber Technologies. A private settlement should not be allowed to decide that we are not employees.

Accordingly, we urge you to reject the settlement currently before you, to remove Ms. Liss-Riordan from the case, and to send the case to trial at the earliest date possible.

Most Sincerely:
