 ORACLE AMERICA, INC. and
 8 ORACLE INTERNATIONAL CORPORATION

10 UNITED STATES DISTRICT COURT
 11 NORTHERN DISTRICT OF CALIFORNIA

12 ORACLE AMERICA, INC., a Delaware
 13 corporation and ORACLE INTERNATIONAL
 14 CORPORATION, a California corporation,

15 Plaintiffs,

16 v.

17 NEC CORPORATION OF AMERICA, a
 Nevada corporation,

18 Defendant.

Case No. _____

**COMPLAINT FOR COPYRIGHT
 INFRINGEMENT AND BREACH OF
 CONTRACT**

DEMAND FOR JURY TRIAL

1 Plaintiffs Oracle America, Inc. and Oracle International Corporation (collectively, “Oracle”)
2 allege as follows:

3 **PARTIES**

4 1. Plaintiff Oracle America, Inc. (“Oracle America”) is a corporation organized under the
5 laws of the State of Delaware with its principal place of business at 500 Oracle Parkway, Redwood
6 Shores, California 94065. Oracle America develops and licenses certain intellectual property, including
7 the Oracle Database, its database management software, and provides related support and consulting
8 services to its licensed customers.

9 2. Plaintiff Oracle International Corporation (“Oracle International”) is a corporation
10 organized under the laws of the State of California with its principal place of business at 500 Oracle
11 Parkway, Redwood Shores, California 94065. Oracle International owns and licenses certain
12 intellectual property, including the Oracle Database. Oracle International, either on its own or jointly
13 with Oracle America (depending on the registration), holds all interest, right, and title to the copyrights
14 in the Oracle Database and the right to bring claims for infringement of those copyrights.

15 3. Defendant NEC Corporation of America (“NECAM”) is a corporation organized under
16 the laws of the State of Nevada with its headquarters and principal place of business at 3929 W John
17 Carpenter Freeway, Irving, Texas, 75063. On information and belief, NECAM conducts substantial
18 business operations and has customers around the United States, including within California and the
19 Northern District of California. On information and belief, NECAM offers a range of software and
20 hardware products for end users across a spectrum of industries. On information and belief, NECAM is
21 a subsidiary of NEC Corporation, a Japanese multinational information technology company
22 headquartered in Minato, Japan.

23 **JURISDICTION AND VENUE**

24 4. The Court has subject matter jurisdiction under 28 U.S.C. §§ 1331, 1338, and 1367. This
25 is an action for copyright infringement arising under the Federal Copyright Act, 17 U.S.C. §§ 101 *et seq.*
26 This Court has subject matter jurisdiction over the copyright infringement claim pursuant to 28 U.S.C.
27 §§ 1331 and 1338. This Court has supplemental jurisdiction over the state law claim pursuant to 28
28 U.S.C. § 1367.

1 5. The Court also has subject matter jurisdiction under 28 U.S.C. § 1332. The matter in
2 controversy exceeds the sum or value of \$75,000, exclusive of interest and costs, and the action is
3 between citizens of different States.

4 6. This Court has personal jurisdiction over NECAM because NECAM has consented to the
5 exclusive jurisdiction of, and venue in, the courts in San Francisco or Santa Clara counties in California,
6 in any disputes arising out of or relating to the Oracle PartnerNetwork Agreement (“OPN Agreement”)
7 and the related Master Distribution Agreement (“MDA”) between NECAM and Oracle America, and
8 this is such a dispute. *See* 2018 MDA § Q(1) (“This Agreement is governed by the substantive and
9 procedural laws of the State of California and you and Oracle agree to submit to the exclusive
10 jurisdiction of, and venue in, the courts in San Francisco or Santa Clara counties in California, in any
11 dispute arising out of or relating to this agreement.”); 2020 OPN Agreement § W(1) (“This agreement is
12 governed by the substantive and procedural laws of the State of California and you and Oracle agree to
13 submit to the exclusive jurisdiction of, and venue in, the courts in San Francisco or Santa Clara counties
14 in California in any dispute arising out of or relating to this agreement.”).

15 7. The Court also has jurisdiction over NECAM because NECAM has conducted and
16 regularly conducts business within the State of California and within this judicial district. For example,
17 on information and belief, NECAM is registered with the California Secretary of State to do business in
18 California, has offices located California, has employees who work and reside in California, and has one
19 or more customers located in California. On information and belief, NECAM – directly or through
20 intermediaries – makes, distributes, offers for sale or license, sells or licenses, or advertises its products
21 and services in the United States, the State of California, and the Northern District of California.

22 8. Venue is proper in the Northern District of California under 28 U.S.C. § 1391(b)(2), as a
23 substantial part of the events or omissions giving rise to the claim and the actual harm to Oracle
24 occurred in this district, where Oracle America and Oracle International have their principal places of
25 business, by reason of NECAM’s conduct. Venue is further proper in this District under
26 28 U.S.C. § 1400(a), as NECAM is subject to personal jurisdiction within this district. Venue is further
27 proper in this District, as NECAM has consented to venue here, as discussed above.

28

1 **INTRADISTRICT ASSIGNMENT**

2 9. This action is an Intellectual Property Action, as it arises under the copyright laws of the
3 United States and implicates Oracle’s intellectual property rights, and should thus be assigned on a
4 district-wide basis under Civil Local Rule 3-2(c).

5 **BACKGROUND**

6 **A. Oracle’s Industry-Leading Software**

7 10. Oracle is a global leader in database management software and technology,
8 cloud-engineered systems, and enterprise software products.

9 11. One of Oracle’s flagship products is the Oracle Database, a software product designed to
10 enable reliable and secure storage, retrieval, and manipulation of all forms of data, which has become
11 the world’s most popular enterprise database. The Oracle Database is licensed throughout the world by
12 businesses and organizations of different sizes for a multitude of purposes.

13 12. Oracle currently licenses the Oracle Database in different editions, including Standard
14 Edition 1 (“Database SE1”), Standard Edition 2 (“Database SE2”), and a more robust (and expensive)
15 Enterprise Edition (“Database EE”). Oracle also offers specialized programs that supplement or
16 complement the Oracle Database and address particular customer requirements, including Real
17 Application Clusters, Partitioning, Diagnostics, and Tuning Pack (the “Database Options and Packs”).

18 13. Oracle is the owner or exclusive licensee of the copyrights and copyright applications for
19 the Oracle Database and the Database Options and Packs. The works are properly registered with the
20 United States Copyright and Trademark Office, as alleged in more detail below.¹

21 14. As part of its business and in certain circumstances, Oracle allows third-party companies
22 – members of the Oracle PartnerNetwork (“OPN”) – to duplicate the Oracle Database (and other Oracle
23 software, including the Database Options and Packs) and distribute it, either on its own or with other
24 software applications, to end users. Oracle offers OPN members multiple ways to distribute Oracle
25 software (and associated licenses) to end users, including, but not limited to the three alternative
26

27 _____
28 ¹ Because Database SE1 and Database SE2 (collectively “Database SE”) share the same code base as
Database EE, Oracle’s “Oracle Database” copyright registrations cover both Database SE and
Database EE. See *infra* ¶ 39 (table of copyright registrations).

1 distribution methods listed below, provided the OPN member has an active OPN membership and has
2 entered into a Master Distribution Agreement with a specific distribution addendum with Oracle that
3 covers the method of distribution to be used. The distribution methods listed below are listed in order of
4 increasing breadth, flexibility, and cost:

- 5 (i) Embedded Software License (“ESL”) – Oracle grants the OPN member a right to
6 distribute to end users Oracle software, and a license for it, “embedded” within one or
7 more specified applications developed by the member. To obtain this right, the OPN
8 member must execute an Embedded Software License Distribution Addendum (“ESL
9 Addendum”), and its distributions are subject to the terms and conditions of the OPN
10 Agreement, Master Distribution Agreement, and the ESL Addendum. This is the most
11 restrictive distribution method, as the ESL Addendum, among other things, imposes strict
12 limitations on exactly how an OPN member must embed the Oracle programs and how its
13 end users can access the Oracle programs.
- 14 (ii) Application Specific Full Use (“ASFU”) – Oracle grants the OPN member a right to
15 distribute to end users Oracle software, and a license for it, solely for use in conjunction
16 with one or more specified applications developed by the OPN member. To obtain this
17 right, the OPN member must execute an Application Specific Full Use Distribution
18 Addendum (“ASFU Addendum”), and its distributions are subject to the terms and
19 conditions of the OPN Agreement, Master Distribution Agreement, and ASFU
20 Addendum. This method is broader and more flexible (and more expensive) than the
21 ESL method described above but still limits the end user to using the licensed Oracle
22 software only with the specific application(s) that the member identifies to Oracle.
- 23 (iii) Full Use – Oracle grants the OPN member a general right to distribute to end users
24 Oracle software, and a license for it, without the requirement, among other things, that it
25 be used solely in conjunction with an application developed by the OPN member. To
26 obtain this right, the OPN member must execute a Full Use Distribution Addendum
27 (“Full Use Addendum”), and its distributions are subject to the terms and conditions of
28

1 the OPN Agreement, Master Distribution Agreement, and Full Use Addendum. This is
2 the broadest, most flexible, and most expensive method.

3 15. Per Oracle’s standard policy, under each of the three distribution methods listed above,
4 an OPN member is required to pay to Oracle a license fee for all Oracle software that it distributes and a
5 support fee for support services from Oracle, if ordered, for the distributed Oracle software, and an
6 annual technical support fee each year for ongoing support services from Oracle, if ordered, for the
7 distributed Oracle software.

8 **B. NECAM’s Unauthorized Use of the Oracle Database and the Database Options and Packs**

9 16. For more than fifteen years, NECAM was an OPN member with an active OPN
10 Agreement with Oracle. NECAM first entered into an OPN Agreement with Oracle in or before 2004,
11 and the parties renewed their OPN Agreement from time to time, most recently effective in August
12 2020.¹ The parties’ OPN Agreement set forth general terms that governed NECAM’s OPN
13 membership, and it provided NECAM with a limited license to use Oracle software to develop value-
14 added applications that incorporated Oracle software under the following terms and conditions:

15 “Oracle grants you a non-exclusive, limited license to use the technology programs identified in
16 the OPN policies for your partner level to: (a) demonstrate, develop or prototype your value
17 added package for the intended commercial use of multiple end users; (b) provide technical
18 support for employees and end users solely in connection with your value added package that
19 you distribute pursuant to a distribution agreement with Oracle that authorizes you to provide
20 technical support for the Oracle programs; and (c) provide training for the value added package
to employees and end users to whom you have distributed the value added package pursuant to a
distribution agreement with Oracle. Development licenses may not be used to develop or
administer your value added package for the exclusive use of a specific end user.”

21 *See* 2020 OPN Agreement § C(2) (emphasis added).

22 17. In addition to entering into the OPN Agreement, NECAM and Oracle entered into other
23 written agreements that provided – and expressly defined – NECAM’s right to distribute Oracle
24 software to end users. These additional agreements include, but are not limited to, the following:

- 25 • Oracle PartnerNetwork Application Specific Full Use Program Distribution Agreement,
26 effective March 7, 2005;

27 _____
28 ¹ NECAM was an OPN member (or “associate” member) through an OPN membership of its corporate
parent, NEC Corporation. NECAM entered into its OPN Agreement with Oracle by written agreement
of its corporate parent NEC Corporation.

- 1 • Oracle PartnerNetwork Application Specific Full Use Program Distribution Agreement,
2 effective April 18, 2007;
- 3 • Oracle PartnerNetwork Application Specific Full Use Program Distribution Agreement,
4 effective August 24, 2009;
- 5 • Oracle PartnerNetwork Application Specific Full Use Program Distribution Agreement,
6 effective November 29, 2011;
- 7 • Oracle PartnerNetwork ISV Master Distribution Agreement between NEC Corporation of
8 America and Oracle America, Inc., effective December 11, 2013 (“2013 MDA”);
- 9 • Application Specific Full Use Program Distribution Addendum to the Oracle PartnerNetwork
10 ISV Master Distribution Agreement between NEC Corporation of America and Oracle
11 America, Inc., effective December 11, 2013 (collectively, the “2013 ASFU Addendum”);
- 12 • Full Use Distribution Addendum to the Oracle PartnerNetwork ISV Master Distribution
13 Agreement between NEC Corporation of America and Oracle America, Inc. [the 2013
14 MDA], effective September 22, 2016 (collectively, the “2016 Full Use Addendum”);
- 15 • Embedded Software License Distribution Addendum to the Oracle PartnerNetwork ISV
16 Master Distribution Agreement between NEC Corporation of America and Oracle America,
17 Inc. [the 2013 MDA], effective March 8, 2017 (collectively, the “2017 ESL Addendum”);
- 18 • Oracle PartnerNetwork Master Distribution Agreement between NEC Corporation of
19 America and Oracle America, Inc., effective December 6, 2018 (“2018 MDA”);
- 20 • Amendment One to the Oracle PartnerNetwork Master Distribution Agreement between
21 NEC Corporation of America and Oracle America, Inc. [the 2018 MDA], effective
22 December 19, 2018.
- 23 • Full Use License Distribution Addendum to the Oracle PartnerNetwork ISV Master
24 Distribution Agreement between NEC Corporation of America and Oracle America, Inc. [the
25 2018 MDA], effective December 19, 2018 (collectively, the “2018 Full Use Addendum”).
- 26 • Application Specific Full Use Program Distribution Addendum to the Oracle PartnerNetwork
27 ISV Master Distribution Agreement between NEC Corporation of America and Oracle
28

1 America, Inc. [the 2018 MDA], effective December 19, 2018 (collectively, the “2018 ASFU
2 Addendum”).

- 3 • Embedded Software License Distribution Addendum to the Oracle PartnerNetwork ISV
4 Master Distribution Agreement between NEC Corporation of America and Oracle America,
5 Inc. [the 2018 MDA], effective December 19, 2018 (collectively, the “2018 ESL
6 Addendum”).

7 18. As a long-time OPN member and Oracle licensee, NECAM was (and is) intimately
8 familiar with the Oracle PartnerNetwork and the different distribution methods Oracle offers to its OPN
9 members – ESL, ASFU, and Full Use. In the past fifteen years, NECAM has distributed licenses to
10 Oracle software using all three distribution methods – ESL, ASFU, and Full Use – under the agreements
11 set forth above.

12 19. As an OPN member, and under the agreements set forth above, NECAM has distributed
13 the Oracle Database and the Database Options and Packs with software solutions that it has developed
14 and marketed, including a value-added application called “Integra-ID 5” – an application NECAM has
15 marketed as a biometrics identification system used by law enforcement agencies. On information and
16 belief, NECAM has previously marketed this value-added application (or its predecessors) under the
17 name “Integra-ID” and as “Automated Biometrics Identification System.”

18 20. Between 2004 and 2017, NECAM distributed Integra-ID 5, or its predecessor application,
19 with the Oracle Database and the Database Options and Packs to end users with *ASFU* licenses from
20 Oracle. NECAM did so under ASFU Addenda to the parties’ then-applicable MDA, including an ASFU
21 Addendum to the 2013 MDA and a similar ASFU Addendum to the 2018 MDA. Under these ASFU
22 Addenda, Oracle provided NECAM with the right to distribute to end users its Integra-ID 5 application
23 with a license to the Oracle Database and the Database Options and Packs, and NECAM agreed to pay
24 license fees (and support fees) to Oracle based on the number of Integra-ID 5 application packages
25 NECAM distributed with an ASFU license.¹

26
27
28 ¹ In addition to executing the ASFU Addendum, and as a prerequisite before Oracle would allow
NECAM to distribute Oracle software with its Integra-ID 5 application, NECAM submitted for Oracle’s
approval an ASFU Application Package Registration Form for its Integra-ID 5 application (“ASFU

1 21. In 2017 – while retaining its right to distribute Integra-ID 5 with the Oracle Database and
 2 the Database Options and Packs through *ASFU* licenses from Oracle – NECAM sought and obtained
 3 from Oracle the right to distribute Integra-ID 5 embedded with the Oracle Database and the Database
 4 Options and Packs through more restrictive *ESL licenses*. As noted, the ESL license distribution
 5 method is a less expensive, but more restrictive, option for NECAM to distribute its value-added
 6 application embedded with Oracle software. In an ESL Addendum to the 2013 MDA, Oracle provided
 7 NECAM with the right to distribute to end users the Oracle Database and the Database Options and
 8 Packs, and *ESL* licenses for it, embedded into Integra-ID 5, and NECAM agreed to pay license fees (and
 9 support fees) to Oracle (fees much lower than *ASFU* license and support fees) based on the number of
 10 Integra-ID 5 application packages NECAM distributed under the ESL addendum.¹ The parties renewed
 11 this right in early 2019 through an ESL Addendum to the 2018 MDA.

12 22. The ESL Addenda under which NECAM obtained the right to distribute ESL licenses for
 13 the Oracle Database and the Database Options and Packs embedded within its Integra-ID5 application
 14 expressly (and narrowly) define “embedded” to include certain specified requirements, including the
 15 following:

- 16 • “The end user [*i.e.*, NECAM’s software customers] must not be permitted to install or
 17 configure the programs separately and independently from the application package;”
- 18 • “The application program must be designed and developed by you to eliminate program
 19 administration tasks by the end user by including all program administration functions within
 20 the application program. You may not customize the application package for a single end
 21 user or a group of end users. All administration scripts including startup, shutdown, and
 22 backup are to be provided by you within the application program. The end user must not be
 23 permitted to access the programs directly but rather only through the application program;”
- 24 • “All information from the programs must be accessed by the end user either through
 25 prepackaged reports, or ad hoc reports that are developed by you, and included in the

26 APRF”). The *ASFU* APRF contained a high-level summary of certain functionality of the Integra ID-5
 27 application and its use of the Oracle Database and the Database Options.

28 ¹ In addition to executing the ESL distribution addendum, and as a prerequisite before Oracle would
 allow NECAM to distribute its Integra-ID 5 application with Oracle software, NECAM submitted for
 Oracle’s approval an ESL Application Package Registration Form for its Integra ID-5 application
 (“APRF”). The ESL APRF contained a high-level summary of certain functionality of the Integra ID-5
 application and its use of the Oracle Database and the Database Options and Packs. *See* 2017 ESL
 APRF; *see also* 2019 ESL APRF, submitted and approved when the parties renewed the ESL license in
 early 2019.

1 application package which do not require or permit the end user to navigate the underlying
2 data schema. If you include Oracle or third party reporting tools in the application package,
3 such tools must be embedded in the application package pursuant to the terms of this
4 agreement;”

- 5 • “If the application package must interface with another application or database, the end user
6 is not permitted to directly access the database or use Oracle-supplied APIs to establish the
7 transfer of data. To transfer data, you must set up predefined APIs unique to the application
8 package and management of the data transfer must be done through the application
9 program;”
- 10 • “Only you can access the programs directly for purposes of technical assistance to your end
11 user and such access is limited to providing technical assistance, including troubleshooting,
12 problem resolution, and support assistance. You shall not provide remote or onsite program
13 administration tasks on behalf of the end user that are otherwise prohibited under the terms of
14 this agreement.”

15 *See* 2017 ESL Addendum and 2018 ESL Addendum.

16 23. In the OPN Agreement and the MDA, NECAM expressly agreed Oracle may audit
17 NECAM’s use and distribution of Oracle’s software. NECAM further agreed to “pay within 30 days of
18 written notification any fees applicable to [NECAM’s] distribution of the programs, hardware, learning
19 credits and/or services in excess of [NECAM’s] rights and any underpaid fees.” The OPN Agreement
20 states:

21 “Upon 45 days written notice, Oracle may audit your use of the Oracle property. Any such audit
22 shall not unreasonably interfere with your normal business operations. You agree to cooperate
23 with Oracle’s audit and provide reasonable assistance and access to information including but
24 not limited to relevant books, records, agreements, servers, technical personnel, and order
25 reporting systems. You agree to pay within 30 days of written notification any fees applicable to
26 your use of the Oracle property in excess of your license rights. If you do not pay, Oracle can
27 end your technical support, licenses, your OPN membership and this agreement, and/or may
28 choose not to accept your application to renew this agreement at such time of renewal. You agree
that Oracle shall not be responsible for any of your costs incurred in cooperating with the audit.”

See 2020 OPN Agreement § W(5) (emphasis added). The MDA states:

“You agree that you will keep accurate books and records in connection with the activities under
this agreement and any applicable distribution addenda. Upon 45 days written notice, Oracle
may audit your distribution of the programs, hardware, learning credits and services and any
other activities under this agreement and any applicable distribution addenda. Any such audit
shall not unreasonably interfere with your normal business operations. You agree to cooperate
with Oracle’s audit and provide reasonable assistance and access to information including but
not limited to relevant books, records, agreements, servers, technical personnel, and order
reporting systems. Upon Oracle’s request, you will also provide to Oracle a system generated
list of the Oracle program licenses, hardware, learning credits and/or services distributed to end

1 users under this agreement during the time period specified by Oracle and any supporting
2 documentation requested by Oracle pursuant to the terms of Section D (Order Terms) for the
3 purposes of validating the completeness and accuracy of your obligations under this agreement
4 and any applicable distribution addenda. You agree to pay within 30 days of written notification
5 any fees applicable to your distribution of the programs, hardware, learning credits and/or
6 services in excess of your rights and any underpaid fees. If you do not pay, Oracle can end your
7 technical support, licenses, services, the validity of any learning credits, and this agreement
8 and/or may choose not to accept your application to renew this agreement at such time of
9 renewal. Upon Oracle's request, you agree to audit end user(s) and report the findings to Oracle,
10 o assign your right to audit end user(s) to Oracle. You agree that Oracle shall not be responsible
11 for any of your costs incurred in cooperating with this audit.”

12 *See* 2018 MDA § Q(5) (emphasis added).

13 24. In December 2019, Oracle exercised its contractual right to audit NECAM's use and
14 distribution of Oracle software, including, but not limited to, its distributions of Oracle software with or
15 embedded within its own applications, such as Integra-ID 5, and Oracle found numerous compliance
16 issues related to these distributions. Based on information that NECAM itself provided as part of the
17 audit, among other issues, Oracle found the following:

- 18 (i) NECAM had distributed the Oracle Database and the Database Options and Packs with
19 its Integra-ID 5 application to certain end users in excess of its distribution rights under
20 the ESL Addenda; NECAM had improperly reported those distributions to Oracle as
21 having been made pursuant to NECAM's *ESL* Addenda; and NECAM had improperly
22 paid Oracle license fees on those distributions at the *ESL* rate – rather than at the higher
23 *ASFU* license fee rate. NECAM had distributed the Oracle Database *with* Integra-ID 5
24 but not “embedded” with it, as required to be covered by NECAM's *ESL* Addenda. In
25 particular, Oracle found that NECAM customized its Integra-ID5 application for specific
26 end users, certain end users were permitted to create custom reports within the
27 application and had customer APIs to establish transfer of data, and NECAM performed
28 program administrations tasks, on the end user's behalf, in excess of the rights granted
pursuant to the *ESL* Addenda. These distributions are not permitted by NECAM's *ESL*
Addendum; instead, they are permitted by NECAM's *ASFU* Addenda, and NECAM is
obligated under the applicable *ASFU* Addendum to pay Oracle *ASFU* license fees (and
support fees) for them, which NECAM has not done.

1 (ii) NECAM had distributed the Oracle Database (and other Oracle software) in excess of its
2 distribution rights under its ASFU Addenda as well, by distributing it to an end user (the
3 Ohio State Police) for use with a custom application (called “Openfox CCH”) for that
4 user that was being developed by an entity other than NECAM; NECAM had improperly
5 reported those distributions to Oracle as having been made pursuant to NECAM’s *ASFU*
6 Addendum; and NECAM had improperly paid Oracle license fees on those distributions
7 at the *ASFU* rate – rather than at the higher *Full Use* license fee rate. These distributions
8 are not permitted by the ASFU Addendum, since the ASFU Addendum does not
9 authorize distributions of Oracle software for use with applications developed by an
10 entity other than NECAM. These distributions instead are permitted by NECAM’s Full
11 Use Addendum, and NECAM is obligated under the applicable Full Use Addendum to
12 pay Oracle Full Use license fees (and support fees) for them, which NECAM has not
13 done.

14 (iii) NECAM had previously failed to report certain distributions of the Oracle Database with
15 its Integra-ID 5 application to end users as required by the applicable ASFU Addendum,
16 or NECAM had not reported the correct quantity of licenses for those users.

17 (iv) NECAM had on-premise development environments using the Oracle Database and the
18 Database Options and Packs in excess of the rights granted to NECAM under its OPN
19 Agreement and other agreements with Oracle. On information and belief, NECAM’s on-
20 premise development environment contained separate environments using the Oracle
21 Database and the Database Options and Packs for each of its end users, which would
22 allow it to develop and administer updates and fixes, among other things, for each
23 specific end user. This use of the Oracle Database and the Database Options and Packs is
24 not licensed under any existing agreement.

25 Given the magnitude of the issues that Oracle has identified above and as several of the issues relate to
26 unreported royalties and NECAM’s failure to provide information related to its on-premise development
27 environments, Oracle does not know whether this is the full scope of NECAM’s improper conduct
28 pertaining to the OPN Agreement and MDA, or to the parties’ other agreements and addenda.

1 **C. Oracle's Attempts to Settle the Licensing Dispute with NECAM**

2 25. In October 2020, Oracle sent an Audit Report to NECAM, summarizing Oracle's audit
3 findings, subject to the accuracy and completeness of the information provided by NECAM, and asking
4 NECAM to resolve the compliance findings within 30 days as required by the parties' agreements. In
5 the Audit Report, Oracle advised that NECAM needed to procure (pay for) additional ASFU and Full
6 Use licenses for its prior distributions, and Oracle further advised that NECAM had previously failed to
7 report (or had under-reported) certain distributions, as discussed above. In addition, Oracle asked
8 NECAM to provide Oracle with additional information regarding its on-premise development
9 environments to enable Oracle to determine the extent to which they exceeded NECAM's rights.

10 26. NECAM did not resolve Oracle's audit compliance findings within 30 days – nor did it
11 do so in the many months that have followed.

12 27. Oracle has repeatedly asked NECAM to resolve the audit compliance findings, but
13 NECAM has not done so. To date, NECAM has not paid the full license and support fees NECAM
14 owes for its distributions of Oracle software described in paragraphs 24(i) and (ii) above. NECAM has
15 not paid Oracle for the distributions it previously failed to report or under-reported. And NECAM has
16 not provided Oracle with the additional information Oracle requested regarding NECAM's on-premise
17 development environments, which is part of Oracle's audit process.

18 28. On January 19, 2021, Oracle sent a letter to NECAM, notifying NECAM that due to
19 NEC's continued failure to resolve the audit findings, Oracle considers NECAM to be in material breach
20 of its agreements with Oracle. But after receiving Oracle's letter, NECAM still did not resolve the audit
21 findings.

22 29. On March 5, 2021, Oracle sent another letter to NECAM, notifying NECAM that Oracle
23 was, by its letter, terminating NECAM's membership in the Oracle PartnerNetwork, the 2018 MDA, and
24 all related ASFU distribution addenda and ESL distribution addenda.

25 30. Because NECAM has refused to provide Oracle with information related to its use of the
26 Oracle Database in NECAM's on-premise software development environment, Oracle does not yet
27 know the full details of NECAM's use of the Oracle Database in that environment.

28

FIRST CAUSE OF ACTION

Breach of Contract

1
2
3 31. Oracle incorporates by reference each of the preceding paragraphs 1 through 30 as if fully
4 set forth herein.

5 32. Oracle and NECAM entered into contracts with Oracle, including the OPN Agreement,
6 the 2013 MDA, the 2018 MDA, and the related Full Use, ASFU, and ESL Addenda.

7 33. Oracle did all, or substantially all, of the significant things that the contracts required it to
8 do.

9 34. NECAM breached its contracts with Oracle by its acts and omissions, including failing to
10 pay license and support fees owed to Oracle under the contracts and failing to provide information to
11 Oracle as required by the contracts' audit provisions. For example, NECAM breached the 2013 MDA,
12 the 2013 ASFU Addendum, the 2018 MDA, and the ASFU Addenda by failing to report and pay license
13 fees (and support fees) owed under the ASFU Addenda for distributions of its Integra-ID 5 application
14 with the Oracle Database and the Database Options and Packs that were not permitted by NECAM's
15 ESL Addenda. As another example, NECAM breached the 2013 MDA and the 2016 Full Use
16 Addendum by failing to report and pay license fees (and support fees) owed under the Full Use
17 Distribution Addendum for distributions of the Oracle Database (and other Oracle software) to the Ohio
18 State Police that were not permitted by NECAM's ASFU addendum. And, as another example,
19 NECAM breached its duty under the OPN Agreement and the 2018 MDA to cooperate with Oracle's
20 audit and provide reasonable assistance and access to information, by failing to provide Oracle with
21 additional information regarding its on-premise development environments to enable Oracle to
22 determine the extent to which they exceeded NECAM's rights, as Oracle repeatedly requested.

23 35. As a result of NECAM's breaches of contract, Oracle has been damaged in an amount
24 exceeding \$7,000,000.

25 36. NECAM's breaches of contract were a substantial factor in causing Oracle's harm.

26 //
27 //
28 //

SECOND CAUSE OF ACTION

Copyright Infringement Under 17 U.S.C. §§ 101 *et seq.* and 17 U.S.C. §§ 501 *et seq.*

37. Oracle incorporates by reference each of the preceding paragraphs 1 through 36 as if fully set forth herein.

38. Oracle owns valid and enforceable copyrights in all its software products, including the Oracle Database and the Database Options and Packs, which are creative works of original authorship and copyrightable subject matter. Oracle has owned these copyrights throughout the time of NECAM's infringement.

39. In compliance with the Copyright Regulations, Oracle has registered or filed with the Copyright Office copyright applications, registration fees, and deposits of the Oracle Database and the Database Options and Packs. Oracle is the owner or exclusive licensee of all right, title, and interest to the registrations and copyright applications for the Oracle Database and the Database Options and Packs, as described below:

Oracle Real Application Clusters 19c (19.3)	TX 8-843-144	February 26, 2020

1 40. As the owner or exclusive licensee of the copyrights in the Oracle Database and the
2 Database Options and Packs, Oracle enjoys the exclusive right to, among other things, reproduce, make
3 derivative works of, display, and distribute the Oracle Database and the Database Options and Packs. 17
4 U.S.C. §§ 101, 106.

5 41. NECAM is not authorized to reproduce, distribute, make derivative works from, and/or
6 display the Oracle Database or the Database Options and Packs, except as authorized by the OPN
7 Agreement and its existing distribution agreements described above.

8 42. Through the acts described above, NECAM has violated Oracle's exclusive rights to
9 reproduce, distribute, make derivative works from, and/or display the Oracle Database software and the
10 Database Options and Packs software. On information and belief, NECAM has reproduced, distributed,
11 made derivative works from, and/or displayed the Oracle Database and the Database Options and Packs
12 software in its on-premise environments outside the scope any existing license.

13 43. As a long-time member of the Oracle Partner Network and Oracle software licensee,
14 NECAM has been, or should have been, aware of the existence of Oracle's copyrights in the Oracle
15 Database and the Database Options and Packs. On information and belief, NECAM also knew it did not
16 have the appropriate license or authorization to distribute and use the Oracle Database or the Database
17 Options beyond the uses for which it had a license. When Oracle brought the unauthorized use to
18 NECAM's attention, NECAM declined to procure the necessary licenses and continued to infringe
19 Oracle's rights in its copyrighted software. NECAM is therefore a willful infringer of Oracle's
20 copyrights and exclusive rights and subject to treble damages.

21 44. Oracle has been damaged as a result of NECAM's copyright infringement, based on at
22 least NECAM's failure to pay license, maintenance, and support fees related to its use of the Oracle
23 Database and the Database Options and Packs beyond that for which NECAM has a license. Further, on
24 information and belief, NECAM has generated profits through its unauthorized use of the Oracle
25 Database. Oracle is entitled to recover from NECAM the profits NECAM generated through its
26 infringement of Oracle's copyrights in the Oracle Database and the Database Options. Finally, Oracle
27 may elect to recover statutory damages.
28

PRAYER FOR RELIEF

WHEREFORE, Oracle respectfully prays for judgment in its favor against NECAM as follows:

- a. Entry of judgment holding NECAM liable for infringement of the copyrights at issue in this litigation;
- b. An order awarding Oracle all damages resulting from NECAM’s breaches of contract and from NECAM’s infringement of the copyrights at issue in this litigation, including Oracle’s actual damages, NECAM’s profits, treble damages from willful infringement, and/or statutory damages pursuant to 17 U.S.C. § 504, together with prejudgment and post-judgment interest;
- c. An accounting of all gains, profits, and advantages derived by NECAM from its copyright infringement, pursuant to 17 U.S.C. § 504;
- d. Trebling of damages under 35 U.S.C. § 284 in view of the willful and deliberate nature of NECAM’s infringement of copyrights at issue in this litigation;
- e. An order awarding Oracle its costs and attorneys’ fees pursuant to 35 U.S.C. § 285 and 17 U.S.C. § 505; and
- f. Any and all other legal and equitable relief as the Court may deem proper.

Dated: July 8, 2021

Respectfully submitted,

THE NORTON LAW FIRM PC
