We are writing to notify your office of an event that may affect the security of certain personal information relating to approximately eight (8) Maine residents. Welltok, Inc. (“Welltok”) is reporting this incident on behalf of the group health plans of Stanford Health Care, of Stanford Health Care, Lucile Packard Children's Hospital Stanford, Stanford Health Care Tri-Valley, Stanford Medicine Partners, and Packard Children's Health Alliance, who own the data at issue. By providing this notice, Welltok does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On July 26, 2023, Welltok was alerted to an earlier alleged compromise of its MOVEit Transfer server in connection with software vulnerabilities made public by the developer of the MOVEit Transfer tool. Welltok had previously installed all published patches and security upgrades immediately upon such patches being made available by Progress Software, the maker of the MOVEit Transfer tool. Welltok also conducted an examination of its systems and networks using all information available to determine the potential impact of the published vulnerabilities presence on the MOVEit Transfer server and the security of data housed on the server. Welltok confirmed that there was no indication of any compromise at that time.

Upon being alerted to the alleged issue, Welltok moved quickly to launch an additional investigation with the assistance of third-party cybersecurity specialists and using additional information that had been discovered in the intervening period, to determine the potential for a hidden presence of vulnerabilities on the MOVEit Transfer server and the security of data housed on the server. After a full reconstruction of its systems and historical data, the investigation determined on August 11, 2023, that an unknown actor exploited software vulnerabilities, accessed the MOVEit Transfer server on May 30, 2023, and exfiltrated certain data from the MOVEit Transfer server during that time. Welltok subsequently undertook an exhaustive and detailed reconstruction and review of the data stored on the server at the time of this incident to understand the contents of that data and to whom that data relates. On October 18, 2023, the group health plans of Stanford Health Care, of Stanford Health Care, Lucile Packard Children's Hospital Stanford, Stanford Health Care Tri-Valley, Stanford Medicine Partners, and Packard Children's Health Alliance learned the scope of the data present on the impacted server at the time of the event. Since then, Welltok has been coordinating efforts with the impacted data owner(s) to review and verify the affected information and provide direct notice to impacted individuals.

The information that could have been subject to unauthorized access includes name, address, date of birth, and health information.

Notice to Maine Residents

On or about October 3, 2023, Welltok provided notice of this event to Stanford Health Care, of Stanford Health Care, Lucile Packard Children's Hospital Stanford, Stanford Health Care Tri-Valley, Stanford Medicine Partners, and Packard Children's Health Alliance with an offer to provide notification services to potentially impacted individuals on their behalf and at their direction. On or about November 17, 2023, Welltok began providing written notice of this event

to potentially impacted individuals on behalf of its clients, which own the data at issue. This mailing includes notice to approximately eight (8) Maine residents.

Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon discovering the event, Welltok moved quickly to investigate and respond to the event, assess the security of its systems, and notify potentially affected individuals. Welltok is providing access to credit monitoring services for twelve (12) to twenty-four (24) months, depending on state law requirements, through Experian, to individuals whose personal information was potentially impacted by this event, at no cost to these individuals.

Additionally, Welltok is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. Welltok is providing individuals with information on how to place fraud alerts and credit freezes on their credit files, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud.

Notice of Data [Extra2]

Dear Sample A. Sample:

Welltok, Inc., writes on behalf of the group health plans of Stanford Health Care, Lucile Packard Children’s Hospital, Stanford Tri-Valley, Stanford Medicine Partners and Packard Children’s Health Alliance (“Stanford”), to inform you of an event that may affect the security of your personal information. Welltok operates a voluntary online wellness program that encourages healthy lifestyle changes for Stanford and received your information in connection with these services. Although we have no indication of actual fraud or misuse of your information, we are providing you with information about the incident, our response to it, and resources available to you to help protect your information, should you feel it appropriate to do so.

What Happened. On July 26, 2023, we were alerted to an earlier alleged compromise of our MOVEit Transfer server in connection with software vulnerabilities made public by the developer of the MOVEit Transfer tool. We had previously installed all published patches and security upgrades immediately upon such patches being made available by Progress Software, the maker of the MOVEit Transfer tool and conducted an examination of our systems and networks using all information available to determine the potential impact of the published vulnerabilities’ presence on the MOVEit Transfer server and the security of data housed on the server and confirmed that there was no indication of any compromise at that time.

Upon being alerted to the alleged issue, we moved quickly to launch an additional investigation with the assistance of third-party cybersecurity specialists and using additional information that had been discovered in the intervening period, to determine the potential for a hidden presence of vulnerabilities’ on the MOVEit Transfer server and the security of data housed on the server. After a full reconstruction of our systems and historical data, our investigation determined on August 11, 2023 that an unknown actor exploited software vulnerabilities, accessed the MOVEit Transfer server on May 30, 2023, and exfiltrated certain data from the MOVEit Transfer server during that time. We subsequently undertook a time-consuming and detailed reconstruction and review of the data stored on the server at the time of this incident to understand the contents of that data and to whom that data relates. Subsequently, we have learned that data related to you was present on the impacted server at the time of the event.

What Information Was Involved? While we have no evidence that any of your information has been misused, we are notifying you and providing information and resources to help protect your personal information. The following types of your information may have impacted: [Extra1].

What We Are Doing. We take this event and the security of personal information in our care very seriously. Upon learning of this event, we moved quickly to investigate and respond to the event and notify potentially affected individuals. As part of our ongoing commitment to the security of information, we are reviewing and enhancing our existing policies and procedures related to data privacy to reduce the likelihood of a similar future event.

What You Can Do. We encourage you to remain vigilant against incidents of identity theft and fraud by regularly reviewing your account statements and monitoring your free credit reports for suspicious activity and to detect errors. You may also review the information contained in the enclosed *Steps You Can Take to Help Protect Your Information*. There you will also find more information on the credit monitoring and identity restoration services we are making available to you. While Welltok will cover the cost of these services, you will need to complete the activation process. Enrollment instructions are included in this letter.

For More Information. If you have additional questions, or need assistance, please call 1-800-628-2141, which is available Monday through Friday, between the hours of 6:00 a.m. and 8:00 p.m. Pacific Time, and Saturday and Sunday, between the hours of 8:00 a.m. and 5:00 p.m. Pacific Time, excluding major U.S. holidays.

We apologize for any inconvenience to you and remain dedicated to protecting the information in our care.

Sincerely,

Welltok, Inc.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you may need to provide some or all of the following information:

1. Full name (including middle initial, as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a fraud alert or a credit freeze, please contact the three major credit reporting bureaus listed below:

Additional Information

You may further educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General. The Federal Trade Commission may be reached at: 600 Pennsylvania Avenue NW, Washington, DC 20580; www.identitytheft.gov; 1-877-ID-THEFT (1-877-438-4338); and TTY: 1-866-653-4261. The Federal Trade Commission also encourages those who discover that their information has been misused to file a complaint with them. You can obtain further information on how to file

such a complaint by way of the contact information listed above. You have the right to file a police report if you ever experience identity theft or fraud. Please note that in order to file a report with law enforcement for identity theft, you will likely need to provide some proof that you have been a victim. Instances of known or suspected identity theft should also be reported to law enforcement and your state Attorney General. This notice has not been delayed by law enforcement.

For District of Columbia residents, the District of Columbia Attorney General may be contacted at: 400 6th Street, NW, Washington, DC 20001; 1-202-727-3400; and oag.dc.gov.
